

Table 7. Attrition Rate (MainCampus)

Note: The cohort includes everyone (including first time students, returning students, full-time students, parttime students) enrolled in the fall semester. Those who neither reenrolled next fall nor graduated during the year (Sept 1 -August 30 next year) were counted. The attrition rate is calculated as the number of students neither reenrolled nor graduated divided by Cohort Size. Please note some certificate programs do not graduate students, their attrition rate might seem high, which is expected. Also note if a student is retained at Gwynedd Mercy University, but not retained at specific program, that student is also considered "retained" by this methodology.

Cohort Year	College/Degree/Program	Cohort	Neither Reenrolled in next fall nor graduated during the year	Attrition Rate
